ADDRESS

CHAPMAN'S BERRY FARM
EAST LEROY, MICHIGAN

To Our Many Good Friends:

Again the Spring season is coming and we hope you will examine this small list carefully. We hope because of past experiences with us that you will have confidence in us, and that we may again serve you to the best of our ability.

We have been in business here eleven years. We have sold stock to commercial growers, for private use and to other nurseries. We have not booked an order that we did not fill in full on time. We will continue to do the best we can.

Plants are offered for sale from March to May 15th (if weather permits). Later orders are considered if the spring is too backward for planting. Planting instruction and nursery inspection certificates sent with each order. Order plants early while stocks are complete, $\frac{1}{3}$ down, balance before shipment, or full amount with order.

GUARANTEE—

This stock is all state inspected. True to name. The plants are all our own, therefore will stand the climate of Michigan.

We grow berries as well as plants and what has been said comes from our own experience. You will like our plants.

We do our best to put your plants up in No. 1 shipping condition, for we do our own packing. If for any reason on arrival they are not in the condition that you expect, please write us.

Yours truly,

W. H. Chapman

CHAPMAN'S BERRY FARM

PARCEL POST RATES

Large orders sent Express collect.

STRAWBERRIES (Spring Varieties)

NEW ROBINSON (Scarlet Beauty)

The New Robinson is a very thrifty grower. The plant has large, firm, dark red shiny berries, which are very sweet, very little acid. We have extra nice plants of this variety.

DUNLAP

The Senator Dunlap is a very popular home canning berry. It is hardy and a fast grower. Berries are dark red. Excellent for preserves, shortcakes, canning and freezing.

NEW ROBINSON—DUNLAP

Price

25—\$.75	200—\$3.75
50— 1.25	300— 5.25
100— 2.00	500— 7.50
1,000—\$13.50	

PREMIER

The Premier strawberry is an early market variety. The plants are large and healthy and produce a large and uniform bright red berry. Good eating, canning and preserving. One of the best commercial berries. They are a good berry for the North, for they resist the frost.

NEW FAIRLAND

The Fairland is a new variety that is resistant to red stele. It also stands the frost well. The berry is large, bright red, good flavor and lots of them. The plants are hardy and keep the fruit off the ground. A good plant maker. This berry is as near like the Premier in growth, hardiness and production as any berry I have seen. Also a good freezing berry.

PREMIER—NEW FAIRLAND

Price

25—\$1.00	200—\$4.50
50— 1.50	300— 6.00
100— 2.50	500— 8.50
1,000—\$15.50	

EVERBEARING STRAWBERRIES

Everbearer Strawberries start bearing in August the same year they are planted. Plants should be planted in April for best results. 100 plants for the average family.

BRUNES MARVEL

The Brunel Marvel is the earliest of all everbearers. Very prolific grower. The berry is a bright red, fine flavor, non-acid and unexcelled for home use.

People that like strawberries and can't eat other varieties can eat these.

STREAMLINER

The Streamliner is a large, firm, dark red berry of fine flavor. They bear a full crop in the spring, then again in August.

GEM

The Gem everbearer berries are solid and market well. They are large, well shaped berries with a brilliant red color and have tangy flavor. Good for table use, jams and jellies. Produce healthy plants and many of them.

BRUNES MARVEL—STREAMLINER

1,000—\$.	

RASPBERRIES

LATHAM

The Latham is the most widely planted Red Raspberry. Plants are vigorous grower and very hardy. They will grow in any well drained and fertile soil. The berries are large, firm, attractive dark red and fine flavor. Unexcelled for canning or freezing. Berries start ripening in mid-season and continue from four to five weeks.

Extra Large Plants — Express Collect

DURHAM

Everbearing Red Raspberries

These September Everbearing Raspberry plants are good size and the fruit dark red is of excellent quality. Freezes well. It ripens with the earliest raspberries in the spring and starts bearing again in late August and September, thus getting a chance to mature its crop before freezing weather. Plants are vigorous and very hardy and should be a fine addition to the home garden.

DURHAM

LOGAN BERRY (Black)

(EARLY). The New Logan Berry is a disease-resistant black raspberry. A heavy yielder, large, sweet and juicy berries. They are a hardy grower.

BRISTOL (Black)

(Mid-season). The Bristol is a hardy black raspberry. The canes are large and don't winter kill easily. The berries are large, firm and have a fine flavor. We have extra good luck with this variety.

50— 3.75	300— 19.50
100— 7.00	500— 27.50

RHUBARB

Canada Red

Canada Red Rhubarb is blood red from skin to center of stalk. Crisp, tender and delicious. Retains color when cooked. Fine for freezing, pies and preserves. Grown from divisions. This can be picked all summer. Every family should have two to six plants.

MAC DONALD RED

A Canadian origination. The stalks are very large and this variety is a huge producer. Plants are healthy, strong growers; producing long, deep red to pink ribs of very fine flavor. Especially suitable for field growing.

CANADA RED—MacDONALD RED (Rhubarb Divisions)

Price

1—\$.50	6—\$2.50
3— 1.35	10— 4.00

VALENTINE RED

Newest of the red varieties. Developed in Canada and is very hardy. Its large stalks are real dark red in color. Flesh is very tender and has a fine flavor. Makes a bright red sauce. Excellent for pies.

VALENTINE RED

RED LAKE CURRANTS

Red Lake currants are a very hardy growing bush. Berries are large and easy to pick. Ripen over a long season.

Price

2-Year Plants 50c

PIXWELL GOOSEBERRY

Pixwell Gooseberry bushes are vigorous and hardy. The open growing branches make them easy to pick. Berries green, turning to a pinkish cast. They hang on long stems on the underside of the branches.

Price

2-Year Plants 50c

We like to have you come for your plants if you live near by. All our plants are spring dug.

Kindly advise when ordering, the method of shipment desired.

Anything small enough to be shipped parcel post we find just as cheap, better and faster than by express.

Our plants are all home grown.

CHAPMAN'S BERRY FARM

East Leroy, Michigan

If you have friends who are interested in the growing of small fruit, would you pass their names and addresses on to me. I will appreciate it and hereby thank you.
